

RESPECT. HUMILITY. CHARACTER. LEADERSHIP.

These values are engraved on the Iron Vine Shield, which has been presented to winners of the collegiate Iron Vine Shield Series Rugby Invitational games this season.

Along with being Driven by Purpose, these values define Iron Vine as a company and what we look for as we seek to build high-performance teams of cybersecurity experts. Our mission supports critical cyber operations both within the federal government and around the world, and nowhere is teamwork and coordination more necessary. We think in any setting, but especially in the work we do, these values are critical to individual and team success.

It is no accident, then, that we support and invest in rugby, because these values are instilled in rugby players at all levels, especially youth rugby. Players learn what it means to be part of something greater than themselves and combine their unique gifts to help the overall team succeed. Rugby culture nurtures, reinforces, and encourages these values as players become lifelong members of the worldwide rugby community. The Shield Series is our way of celebrating how players live out rugby's core values both on and off the pitch.

At Iron Vine, we set out to create the company that we always wanted to work for, filled with cybersecurity enthusiasts who also embody these values. We think that our success comes from this foundation, which includes former rugby players and coaches, and we think our clients notice and appreciate the difference.

About Iron Vine

Iron Vine Security is a leading Cybersecurity services company specializing in delivering Cyber Operations, Risk Management, and Mission Support to public and private sector enterprises. We provide proven expertise in Cybersecurity program development, security engineering, SOC management, cloud infrastructure security, and digital forensics. Our multiple ISO certifications and our Level 3 CMMI for Services appraisal demonstrate our commitment to quality using defined practices that reduce risk for our customers. At Iron Vine, we are Driven By Purpose to enable our customers to advance their missions securely. [Learn more at ironvine.com.](https://www.ironvine.com)
